DETAILED ACTION

1. This Office action is responsive to the following communication: Amendment filed on 30 August 2006.

Response to Amendment

2. Claims 1-20 are pending and present for examination.
3. Claims 1, 3, 6, 7, 10, 16 and 18 are independent.
4. Claims 1, 3, 4, 6, 7, 9, 10, 14, 16, 18 and 19 have been amended.
5. No claims have been added.
6. No claims have been cancelled.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

8. **Claims 1, 3, 6, 7, 10, 16 and 18** are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The step of outputting the similarity obtained by the similarity calculation and the inclusion degree obtained by the inclusion degree calculation control program for each text is critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). That is, the claim language of the aforementioned claims fail to provide any indication as to the utility and final use of the calculated inclusion degree within the claimed invention as provided for in Paragraph [0039] of the Specification and Figures 5-7 and 10-11.

Art Unit: 2161

Allowable Subject Matter

9. Claims 1-20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action.
